Rounding Up Important Information For Our Neighborhood

Volume 2, Issue 1

Block Captains Needed!

At previous neighborhood meetings, attendees have expressed an interest in forming a neighborhood organization that is focused on getting to know each other and sharing information. At our November neighborhood meeting, we discussed the idea of starting a block club.

Block clubs are a great way for neighbors to meet and get to know each other

without the formalized structure of a neighborhood or homeowners association. By starting a block club, we will have a structure in place for neighbors to:

- Discuss neighborhood issues
- Meet and welcome new residents to the neighborhood
- Work together on improving the quality of life in our neighborhood
- Keep up to date on

community issues

- Monitor neighborhood challenges.

In order to get our block club started, we will need residents to volunteer to be block captains. Each block captain will be responsible for about 8-10 homes.

If you are interested in serving as a block captain, please come to our next neighborhood meeting.
